### Analyze and Extend SharePoint Online Storage to the Azure Cloud

Storage consumption on SharePoint Online is a growing challenge for companies. Many hit their storage limit quickly. As a result, many of these companies are forced to purchase additional storage space from Microsoft at a premium -- or limit the amount of content saved across their existing SharePoint Online environment.

Archive2Azure for SharePoint enables companies to significantly reduce the high cost of adding storage by extending their SharePoint storage to *their* Azure Cloud while providing powerful analytics, end-user access, and increased security.

#### Storage Extension

- Automatically extend SharePoint storage to the more affordable Azure Cloud
- End-user access via Individual access application

#### Measurable Cost Savings

- Automatically move less referenced data to *your* low cost Azure tenancy via policies
- Stop the expensive cycle of purchasing additional high cost SharePoint storage

#### Search, Analytics, Security

- Search extended Azure storage from within SharePoint
- Powerful data analytics provide deeper understanding of data
- Bring Your Own Encryption Keys

Archive2Azure for SharePoint enables you to:

- ✓ Perform detailed analysis of SharePoint Online instances
- ✓ Automatically extend SharePoint storage into *your* Azure Cloud
- ✓ Analyze, identify, and report on SharePoint file consumption
- ✓ Reduce additional SharePoint storage costs by as much as 90%
- ✓ Pay for just what you use with usage-based pricing
- ✓ Store information in its native format

*Image:* Archive2Azure enables organizations to Onboard, Validate, and Manage all structured and unstructured data for comprehensive and low cost information management
