The Customizable Cloud Information Management Platform

No matter the country or industry your company operates in, information management has become a necessity for legal and regulatory requirements. Many companies end up purchasing large, complex, and expensive Information Management Systems even though they only only require a subset of the capabilities.

Archive2Azure Solution Modules allow companies to mix and match just those capabilities they specifically need for their particular industry or situation.

Cost Savings

- Mix and match only those capabilities needed
- Utilize your low cost Azure Cloud
- Reduce risk for compliance and legal responsibilities

Information Management

- Minimize complexity
- Powerful audit and reports
- Preserve original file fidelity for eDiscovery and compliance
- Comply with legal and regulator requirements

Security, Analytics, Security

- Configurable, indexable, scalable search
- Instant translations from or to 50 plus foreign languages
- Bring Your Own Encryption Keys

Archive2Azure Solutions include:

- Salesforce
- Healthcare
- Messaging
- Files
- Databases
- Media
- Legacy Applications
- SharePoint
