Consolidate and Manage all of your Corporate Communications

Today, companies are being overrun with new “must have” communications and collaboration applications while trying to maintain their existing communications channels. Legacy email archives, live journals, and instant messaging are already heavily relied on in many companies. But what about the new

communications channels? Archive2Azure for Messaging provides companies the ability to capture, consolidate, and manage all of their corporate communications for regulatory compliance, litigation preparedness, and business intelligence.

Information Management

- Support for unlimited communications channels
- Native integration with Azure AD, Azure RMS, and SharePoint
- Live journal archiving

Regulatory Compliance

- Immutable & auditable Storage complies with SEC, GDPR, and other regulatory requirements
- Policy-based retention/disposition

Search, Analytics, Security

- Configurable, indexable, scalable search
- Instant translations from or to 50 plus foreign languages
- Bring Your Own Encryption Keys

Archive2Azure for Messaging enables you to:

- ✓ Ensure regulatory compliance
- ✓ Use your company's Azure tenancy to eliminate vendor lock-in
- ✓ Archive and manage a huge number of communications channels
- ✓ Conduct legally and regulatorily defensible data movement and management
- ✓ Increase security with "Bring Your Own Encryption Keys"
- ✓ Save cost with usage-based pricing
- ✓ Store information in its native format
